UNHEARD OF LANDSLIDE.

Entire Republican County Ticket Elected.

Democrats Used New Device to Defraud but Availed Them Nothing.

Tuesday's election resulted in an unheard of landslide for the entire Republican ticket, 757 being registered for E. M. Woodward and 705 for W. B. Taylor for County Judge. Not only was the whole county ticket elected by majorities ranging from 529 to 575, but every magisterial district gave a Republican majority and Ohio county will after the first of next January have a fiscal court composed of seven Republicans and no Democrats.

The election in many respects was one of the most quiet election for county officers held for many years. There seemed to be no one excited except the Democrats and no one made any great stir except them. They indeed worked hard but the voters failed to work with them. In some precincts the voters were intimidated and refused admittance to the polls by Democrat sheriffs of the election and in several precincts a vote register or indicators which were procured in Louisville by one of the Democratic candidates were used by the Democratic precinct heelers to further aid them in buying votes and awing the voters, but they availed them nothing. The boast of the Democratic candidates that they intended to buy the whole county indeed failed to materialize, but they tried and they had "boodle" to spare but the honest voters could not be lured from the right by their glittering coin. The total vote of each candidate is as follows:

FALLING LIMB.

Causes the Instant Death of Willie Chinn Near Heflin.

Willie Chinn a well known young man of Heflin, Ky., was instantly killed Friday afternoon by a falling limb.

The young man was engaged in logging on the Rowan tract of land being employed by Thomas Johnson, who has the contract for cutting a quantity of timber. He, with four or five other men were working in the woods, when a limb from a falling tree flew back and struck him. The side of his face was bruised, his left shoulder was broken down and several of his ribs were crushed in, penetrating his lungs.

The young man was taken to the home of his father, Eley Chinn, which was about a mile away and prepared for burial, which took place Saturday afternoon at 2 o'clock.

In Memoriam.

The angel of death again visited our community November 1 and claimed Miss Mattie daughter of J. B. and Londa Graves while yet only about 1 year of age. Oh how sad to see one so young and fair cut off by early doom but we must bow to the will of Him who is too wise to err and too good to do wrong. Mattie was of such a sweet disposition the very type of a pure christian young lady, she had many warm hearted friends who extend their sympathy to the bereaved family and also her associates. She will be sadly missed in society where she mingled, may we all look forward to a time when we shall again clasp hands on the other shore. Farewell Mattie we hope to meet when life short journey is over. We hope to meet you there on that celestial shore. Ceralvo, Ky.

Work at mines is very slack now owing to scarcity of railroad cars.

THE GREAT RALLY.

Large and Enthusiastic Crowd of Honest Sons of Toil in Attendance.

The greatest gathering of farmers ever witnessed in this county took place at Hartford fair grounds on Saturday, November 4. About 8 o'clock the gates of the fair grounds were thrown open and in poured one continual stream of humanity which lasted until a late dinner hour and still they came until that beautiful woodland on the north side of the grounds was one swaying mass of humanity. Every one seemed to realize that it was rally day and every one seemed to enjoy themselves to the fullest extent.

At 10 o'clock Mr. Westerfield, of Daviess county, made a splendid speech of 30 minutes which was heartily applauded and cries of "Sharp!" "Sharp!" went up all over the crowd at which time M. F. Sharp, our county organizer and secretary, took the stand and for 30 minutes held that immense crowd spell-bound and at the conclusion of which exultant and prolonged cheering rang out. The county president, David Moreland, came to the stand and announced that the time had arrived for the parade and to line up on the inside drive of the ground and thus began the first farmers parade which was ever witnessed in Hartford. The parade was in close double file. They went up on the right side of Main street and around court square over to Griffin's drug store and down to Main street and then back to the grounds. One special feature of the parade was the appearance of that beautiful banner of the United Mine Workers of America. It struck about the center of the parade.

Intense and prolonged cheering rang out when the front ranks reached the bridge. When all had regained the fair ground, the County President announced the dinner hour and all repaired to their several well-filled baskets that the good women of Ohio county knows so well how to prepare.

Dinner being served they returned to the grand stand where speeches were made by Messrs. Foster Wade and others which entertained the crowd till our National President of the Tobacco Growers Association, E. L. Davenport, who came up on the 12:30 o'clock train, arrived where he was met at the depot by Mr. Park and drove to the fair ground where he was most enthusiastically received. Prolonged cheering lasted for several minutes, after which he reached the stand and was introduced by J. P. Foster.

Mr. Davenport took for his subject The gospel meat of the A. S. of E., and the old way and the new and "waded in" and held those anxious thousands spell bound for an and a half. He was very frequently hour applauded until it became deafening.

Mr. Davenport is a man of excellent physique with pleasing manners and incessant flow of language and a natural orator.

At the close of the speech the people dispersed to their many homes and so ended a very pleasant day of the toiling thousands of Ohio county.

Resolutions of Respect.

At a call meeting of Rough River Lodge No. 11, Knights of pythias, held at Castle Hall, in Hartford, Ky., on November 3, 1905, the following resolutions were adopted regarding the death of our brother Sam S. Cox:

Whereas, It has come to the knowledge of this Lodge that Brother Sam S. Cox, a valued member and officer of our Lodge, died at the home of his brother-in-law at Elkton, Ky., on Thursday afternoon, November 2d, 1905, to which point he had recently gone for a short visit; Be it therefore

Resolved, 1st. That the information conveying to us the sad intelligence of the death of our brother

comes to us as a great surprise and shock, and it is with heads bowed in grief that we are called upon to pay to him and his memory this last small token of our appreciation of him and his sterling young manhood; his worth as a member and officer of this Lodge and more than all his worth as a citizen of Hartford, the town of his birth, where he was loved and respected by all who knew him.

2d. That we, the officers and members of this Lodge, bow in humble submission to the acts of an alwise God who doeth all things for the best, and that we shall always cherish his sunny disposition and try to emulate his goods traits, realizing that in his heart he had cast out every grudge and had banished every unkind thought and had put away every personal prejudice and was a shining light in our order, and we were proud to have his name on our roster.

3rd. That we have lost a true and faithful Knight, one who ever wore the armor of truth, virtue and morality and who held these traits uppermost in his every day affairs of life and thus disseminated the principles of friendship, charity and benevolence.

4th. That a copy of these resolutions be spread upon the minutes of our Lodge, that a copy to be furnished to the family of the deceased, and a copy furnished each of the local papers for publications.

Done by the order of the Lodge, this third day of November, 1905.

In Memory.

In loving remembrance of Fink Growbarger our affectionate father and husband who departed this life October 7th, 1905. In our grief we have consolation in the fact, and we owe it as a tribute to his memory, to state, that to the best of his ability, the care of wife and children was his highest earthly duty. We sincerely thank all friends, who so kindly sympathized with us in our bereavement. Yours sincerely,
MRS. L. GROWBARGER and Children.

Many Persons Have Catarrh of Kidneys, Or Catarrh of Bladder and Don't Know It.

President Newhof and War Correspondent Richards were Promptly Cured By Pe-ru-na.

Mr. C. B. Newhof, 10 Delamare street, Albany, N. Y., President Montefiore Club, writes:

"Since my advanced age I find that I have been frequently troubled with urinary ailments. The bladder seemed irritated, and my physician said that it was catarrh caused by a protracted cold which would be difficult to overcome on account of my advanced years. I took Peruna, hardly daring to believe that I would be helped, but I found to my relief that I soon began to mend. The irritation gradually subsided and the urinary difficulties passed away. I have enjoyed excellent health now for the past seven months. I enjoy my meals, sleep soundly, and am as well as I was twenty years ago. I give all praise to Peruna."—C. B. Newhof.

Suffered From Catarrh of Kidneys, Untroubled With Nervous Collapse, Cured By Pe-ru-na.

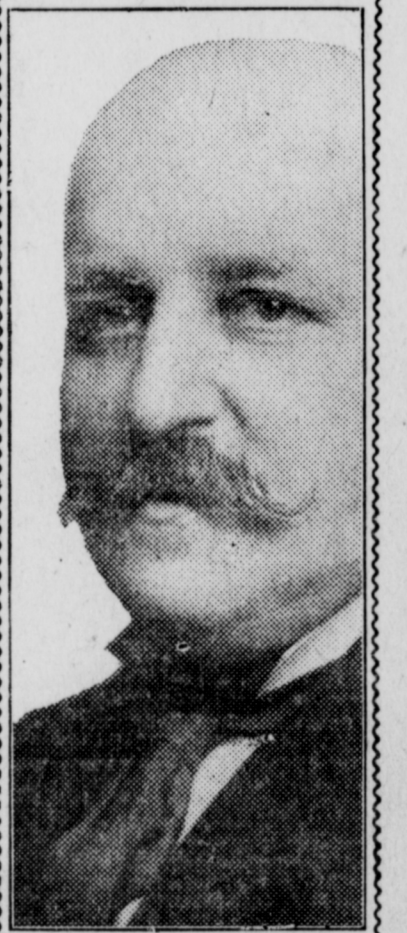

Mr. F. B. Richards, 609 E Street, N. W., Washington, D. C., War Correspondent, writes: "Exactly six years ago I was ordered to Cuba as staff correspondent of the New York Sun. I was in charge of a Sun dispatch boat through the Spanish American War. The effect of the tropical climate and the nervous strain showed plainly on my return to the states. Lassitude, depression to the verge of melancholia, and incessant kidney trouble made me practically an invalid. This undesirable condition continued, despite the best of treatment.

Finally a brother newspaper man, who like myself had served in the war, induced me to give a faithful trial to Peruna. I did so. In a short time the lassitude left me, my kidneys resumed a healthy condition, and a complete cure was effected. I cannot too strongly recommend Peruna to those suffering with kidney trouble. To-day I am able to work as hard as at any time in my life, and the examiner for a leading insurance company pronounced me an "A risk."

In Poor Health Over Four Years.

Pe-ru-na Only Remedy of Real Benefit. Mr. John Nimmo, 215 Lippincott St., Toronto, Can., a prominent merchant of that city and also a member of the Masonic order, writes:

"I have been in poor health generally for over four years. When I caught a bad cold last winter it settled in the bladder and kidneys, causing serious trouble. I took two greatly advertised

PRES. C. B. NEWHOF, Suffered From Catarrh of Bladder

kidney remedies without getting the desired results. Peruna is the only remedy which was really of any benefit to me. I have not had a trace of kidney trouble nor a cold in my system."

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

THE LATEST NEWS.

Gathered From Various Sources Over the Country--Brief Items.

In a letter to the Courier-Journal from Ewing, Va., Frank Ball, the alleged Bell county fugitive-murderer, says he will return to Middlesboro for trial when satisfied he can have a fair and impartial hearing. The troops at Middlesboro spent a quiet day and there was no further trouble with the outlaws in the mountains, who are now said to be under the leadership of Riley Ball, a sixteen-year-old boy. Under a misapprehension Col. Roger Williams, of the Second regiment, K. S. G., ordered all the companies of his regiment ready for service in the mountains, but it is not now thought they will be needed.

TERRIBLE EXPERIENCE.

Had by a Girl Who Was Lost in
the Wilds For Three
Days.

[Seattle (Wash.) Dispatch.]

For two nights and three days Mabel Tate, the child-wife of Frank Tate, a Seattle saloon keeper, wandered through the woods near Harper, Wash., dressed in underclothing, seeking a house where she might report the sinking of a launch that contained her husband and five other persons. Mrs. Tate dragged herself hysterical with cold and exposure, into the home of a beach resident, to tell her story.

Frank Tate started for Tacoma with his wife and five chance acquaintances. In the bottom of his launch he carried an iron box, containing \$4,000 in gold with which he intended to purchase a saloon. To celebrate his new location he took with him several bottles of whisky and beer.

The wife of Tate cowered in the bottom of the boat, fearful of serious consequences if she protested. From the time they left Seattle until they were with sight of Tacoma Mrs. Tate says the men in the boat were drinking heavily. They were armed and frequently drew their guns and knives to threaten each other as the whiskey began to tell upon them.

Finally she became frightened when the boat had been abandoned to its course and was staggering down the west passage. She threw off her outer clothing and plunged into the sea. At that time she was half a mile from shore.

A short distance away the girl looked back to see the boat sinking and her companions shrieking in fear. She landed on a desolate beach and wandered for two and a half days before finding the home of Nelson Butts, at Harper, Wash., yesterday where she was taken in and cared for.

She told her story, and there

subsequently passers-by told a story that confirmed her tale of the sinking boat.

Ordinance of the City of Hartford.

The City Council of the City of Hartford, Kentucky do ordain as follows:

Section 1. That there is hereby created and established a franchise of privilege to erect, operate and maintain a telephone exchange, embracing central office apparatus, telephone poles, fixtures, cables and wires, along, through, over and under the streets, side walks and alleys of said City of Hartford Kentucky.

Section 2. The said franchise or privilege shall continue for a period of twenty (20) years from and after the time the same shall take effect.

Section 3. The purchaser of said franchise or privilege may assign or transfer the same.

Section 4. Said poles, fixtures, cables and wires shall be erected and maintained in a substantial and workmanlike manner; said poles shall be neatly painted and shall be so located as not to interfere with the legitimate entrance to any adjoining private property, nor to obstruct the free use of such streets, sidewalks and alleys for the purpose of public travel.

Section 5. The purchaser of said franchise or privilege, his successors or assigns, shall promptly replace all paving and macadam that may be disturbed by said purchaser in setting said poles; and shall also at said purchaser's own expense remove all dirt and debris that may arise in making excavations for that purpose and all work of setting poles shall be done under the supervision of the Street committees, and it shall be the duty of such committees to see that the provisions of this ordinance are faithfully complied with.

Section 6. The City of Hartford, Ky., shall have the right to place, maintain and operate its fire and police wires upon the poles of said purchaser (within the corporate limits of said city of Hartford, Kentucky,) free of charge provided said wires be located on said poles in such a way as not to interfere with the

wires of said purchaser.

Section 7. Said purchaser, his successors and assigns shall indemnify the city of Hartford, Ky., free from any and all damage that may arise from the presence of said poles, fixtures, cables and wires upon, along or under said streets, sidewalks and alleys, or from its failure to comply with the previous of this ordinance.

Section 8. If, after said exchange is established, said purchaser, his successors or assigns shall fail to perform the terms and conditions of this ordinance, said City Council may, after giving said purchaser, his successors or assigns reasonable notice of such failure and such failure is not remedied, revoke all rights and privileges granted, and cause the poles, wires and apparatus erected under this ordinance to be removed.

Section 9. Within fifteen (15) days after the approval and publication of this ordinance it shall be the duty of said City Council to advertise through its City Marshal by publishing a notice in a newspaper published in the City of Hartford, Kentucky, or by posting written or printed notices for a period of ten days in at least three conspicuous places in said City of Hartford, Kentucky, that bids will be publicly received for the before mentioned franchise or privilege and said City Marshal shall state in said advertisement the time and place (said time shall not be later than the 25th day of November, 1905,) when bids shall be received and said City Marshal shall according to said advertisement, receive such bids and report same to said City Council at its next regular meeting and said City Council shall award said franchise or privilege to the highest and best bidder, subject, however, to the approval of the said City Council. Said advertisement shall reserve the right to reject any and all bids. The bidder to whom said franchise or privilege shall be awarded shall pay the amount of such bid in cash, of certified check to the Treasurer of said City of Hartford, Kentucky, within ten (10) days after such franchise is awarded.

Section 10. This ordinance shall take effect and be in force from and

after its passage.

Approved, November 1, 1905.

OHIO county's new Fiscal Court
will, if people will only present their
bills, inform the public immediately
after taking charge of affairs the
exact amount of the county's debt.

It is being rumored that on ac-
count of the excellent work done in
the recent campaign, Mr. Y. L.
Moseley has been chosen permanent
Chairman of the Democratic cam-
paign Committee.

JUDGE MILLER'S 7,000 or 8,000
letters sent out to the voters in en-
velopes with his picture on one end
and the message "Read me; keep
me; re-read and read again" on the
other seemed to be effective, as
Taylor's 705 majority indicates.

MILLER'S alleged saving of \$21,000
to Ohio county tax-payers by reason
of a reduction in the poll tax rate
in the light of the fact that he and
his Board of Supervisors forced the
tax-payers to pay \$81,000 more taxes
during the same time that the
\$21,000 was alleged to have been
saved seemed to have but little
weight with the voters last Tues-
day.

DID the Democrats have any money
last Tuesday? Yes, they placed
\$950 in the hands of one of their
henchmen at Rosine under written
contract with him that the Rosine
precinct was to go Democratic. The
Republicans carried the precinct by
134 votes and Wednesday a defeated
candidate and the Chairman of the
Democratic Campaign Committee
went after the \$950 but it could not

be located.

SATURDAY a Democratic candidate
went to Louisville. Sunday it was
generally reported that machines
had been procured at Louisville to
steal the election with. Monday these
contrivances were sent to Democrat-
ic heelers all over the county, and
some of them fell in the hands of
Republicans and are now on exhibi-
tion here where any one can see
them who cares to do so. The con-
trivance is made so that if the voter
uses it he cannot possibly vote any-
thing except the Democratic ticket.
What do the people generally think
of this effort to steal the election
in Ohio county?

THE decisive victory won by the
Republicans last Tuesday demon-
strates the fact that Ohio county is
unmistakably Republican. While
there was evidence of quite a good
deal of independent voting, about as
much was drawn from the Republi-
can as the Democratic party and a
strict party vote would have given
practically the same result. It is al-
so evidence that the people favor
public management of the county's
affairs. It means down with third
termism and forever warns public
officials to deal with the public in a
public manner. It is an indorse-
ment and commendation of the high-
est order of the ticket elected, not only
as Republicans but as gentlemen,
worthy of the highest honor.

In Memory.

With bowed heads and aching
hearts neighbor whispered to neigh-
bor, Sam Cox is dead. A pall of
sadness seemed to unwind its sable
folds and settle in awful gloom
about our little city. To every
street corner, to every home the ap-
palling news spread, and tender
words of love for the noble young
man so quickly snatched away, and
sympathy for the bereaved ones were
heard on every hand. Although
Sam had not been well for a long
time, neither his family or friends
knew the serious nature of his mal-
ady. Going for a little rest from busi-
ness as well as a pleasant visit to his
sister, Mrs. Charles Rogers, Elkton,
Ky., he was immediately taken se-
riously ill. Physicians were sur-
mised, consultations held and it
was thought best to call his mother
to his bedside. So rapidly did disease
ravage his body that Thursday No-
vember, 2, after only a few days of
resistance he gave up his brave
struggle, and his young life ended in
the very beginning of a promising
manhood. Samuel Sullivan Cox was
born in Hartford, Ky., March 3,
1881. He was given the name of the
Hon. "Sunset" Cox, who was figur-
ing so prominently in national affairs
at that time, and a relative of his

father's family. One of Sam's cher-
ished possessions was a letter writ-
ten to him by Mr. Cox, when he was
a little boy three years old. Sam's
education was obtained at his home
college, and high on its honor roll
his name stands as a young man of
sterling worth and splendid business
qualities. His course in banking
was given by his father, and under
his wise training and thoughtful care
he had fitted his only son as his suc-
cessor in a business, the pride of
Hartford and Ohio county. How
he had heeded the council and in-
struction of that devoted father you
may judge when the father was
heard to say "Sam could run my
business, he was familiar with every
detail, and I was looking forward to
an old age free from business care
and responsibility." Sam will be miss-
ed in the home where he was as gentle
and tender as a girl—Sam will be
missed in his place of business where
he was a courteous polite young man
—Sam will be missed in the lodge
room where his loyalty to the prin-
ciples of Pythianism was shown in his
regard for fellowmen—Sam will be
missed in the Sunday School where
his rich young voice in melody offer-
ed a service of song to the Heavenly
Father—Sam will be missed in the
social circle where by his charming
personality and engaging manners he
was a universal favorite. He will be
missed by the children on their way to
school as a cheery smile or a
pleasant word was given them as
they passed. How fitting at the
"Sunset" hour with mellow light of
an Indian summer sun, so tender and
so sad, surrounded by his loved ones,
and brother Knights, his sacred dust
should be planted in Gods Acre to
await the trumpets call. B. B.

Many Americans would add no free-
dom from catarrh, which is so ag-
gravated during this month that it
becomes constantly troublesome.
There is abundant proof that catarrh
is a constitutional disease. It is re-
lated to strophula and consumption,
being one of the wasting diseases.
Hood's Sarsaparilla has shown that
what is capable of eradicating scro-
fula completely cures catarrh, and
taken in time prevents consumption.
We cannot see how any sufferer can
put off taking this medicine, in view
of the widely published record of
its radical and permanent cures. It
is undoubtedly America's Greatest

ease—Catarrh.

No false pretense has marked the
career of Ely's Cream Balm. No
idle promises of reward for cases it
will not cure. Being entirely harm-
less, it is responsible like the catarrh

virtue of Ely's Cream Balm is that it
speedily and completely cures nasal

LAST FLAGSHIP OF NELSON

British Naval Expert Tells of the Great Progress Which Has Been Made in Naval Construction.

The Victory, the last of Nelson's battleships, now floating in Portsmouth harbor at the venerable age of 140 years, was recently taken by Sir Philip Watts, director of naval construction in England, as the starting point of an interesting address on the last 100 years' progress in warship design, says the New York Globe.

This 100-gun vessel, built in 1765, was 40 years old at the last great sea fight of Great Britain at Trafalgar. The length of her gun decks is 186 feet, her extreme breadth 51 feet 10 inches and her "burthen in tons 2,162 22/94." The thickness of the oak sides of these wooden battleships, above the water line in the days of Trafalgar was about two feet. The old cast iron smoothbores, with their wooden trucks, then in use, had a range of 2,500 yards at eight degrees elevation (the 24 and 32-pounders). The 24-pounder was able to penetrate nearly five feet of solid oak and the 18-pounder about half this amount. There were heavier guns, but owing to the primitive appliances then in use they were difficult to handle.

The naval fighting machine which 100 years of evolution has produced is a very different sort of vessel and is so much more powerful that a single one of the late British battleships could, it is said, have engaged the whole of the British fleet at Trafalgar and the allied fleet thrown in.

The modern 12-inch wire-wound gun will penetrate 42 inches of wrought iron and even at 3,000 yards will force uncapricious projectiles through over 12 inches of Krupp steel armor. The 12-inch guns recently manufactured by the Armstrongs and Vickers companies in England are said to be capable of penetrating 51 inches of wrought iron and will fire two rounds per minute.

According to Sir Philip Watts, the present relation between guns and armor is about what it was in the days of the cast iron smoothbore and the oak sides, so that while there have been great advances the relative positions of offense and defense in naval warfare are but little changed.

GIBRALTAR IS CRUMBLING.

The Great Rock Is Continually Being Strengthened Because of Tendency to Rot Away.

The public is not aware that the great rock of Gibraltar is tumbling down—that its crumbling, rotting masses must be continually bound together with huge patches of masonry and cement, asserts the Chicago Chronicle.

Yet they who sail past Gibraltar cannot fail to notice on the eastern slope of the fortress enormous silver-colored patches gleaming in the sun. These patches, in some cases 30 or 40 feet square, are the proof of Gibraltar's disintegration. Of thick, strong cement, they keep huge spurs of the cliff's side from tumbling into the blue sea.

Sea captains, cruising in the Mediterranean, say that Gibraltar has been rotting and crumbling for many years, but that of late the disintegration has gone on at a faster rate than heretofore.

They say that the stone forming this imposing cliff is rotten stone, and that in a little while the phrase, "the strength of Gibraltar," will be meaningless.

British Throughout.

It is possible to go round the world touching only on British territory all the way—viz., from England to Halifax, N. S., across Canada to Vancouver, across the Pacific to Hong Kong, thence to Singapore, Penang, Mauritius, Cape Town, St. Helena, and England; or from Penang to Ceylon, Bombay, Aden, Perim, Malta, Gibraltar, and home. Such a "sea connection" no other nation in the world possesses.

The Worm Turns.

Garrulous Acquaintance—Are you not sometimes afraid a day will come when you will have written yourself out and will have to quit or go at something else for a living?

Borus (struggling author)—My dear sir, such an idea is wholly fal-

lacious. You have been talking for 50 years, and you haven't talked yourself out yet, have you? —Chicago Tribune.

Roumania's Illiteracy.

Roumania appears to be the most illiterate country in Europe. The last census shows that in the population of about 6,000,000 nearly 4,000,000 can neither read nor write and that only a little over 1,000,000 have any education at all.

PLAY BASEBALL BY NIGHT.

In Dawson City Game Is Called at Eight in the Evening—Theater Begins at Ten P. M.

John Scudder McLain, of Minneapolis, in his recent book, "Alaska and the Klondike," says of a famous arctic city: "Dawson has a good theater, an athletic club house for winter sports and athletic grounds well prepared for baseball, cricket and tennis. A peculiar institution is the town crier, known as 'Uncle John,' who parades the streets with a megaphone, an improvement on a bell, and announces the hour and place of forthcoming events. The long summer days simplify arrangements of this character materially. The baseball crank and the office boy are not compelled to devise excuses for the neglect of their business in the middle of the afternoon to witness a baseball game. The game does not begin until eight o'clock in the evening, and the theater, recognizing it as a stiff competitor, does not ring up its curtain until ten o'clock. This means, of course, that the play is not over until 12:30 or 1 o'clock in the morning, but inasmuch as the night is nearly as light as the day no inconvenience is suffered on that account.

"Dawson lies north of the 64th degree of north latitude and experiences as wide differences of temperature, probably, as are known in any inhabited portion of the globe. The thermometer registered 90 degrees above zero a few days before our arrival and two days of our stay were uncomfortably hot at midday. In the winter 60 or 70 below is not a very rare experience.

"And yet the 'sourdoughs' (well-seasoned residents)," Mr. McLain continues, "speak with real enthusiasm of the winter climate. 'It is all right here in winter,' said one, 'except when it moderates sometimes and the temperature rises to 25 or 30 below. You see it feels so much like spring that our people needlessly expose themselves and catch cold.'"

TYPHOID CAN BE AVOIDED.

Water Supply Is Whole Secret of Staving Off Disease—Blame the Health Board.

Typhoid is an unnecessary evil, it is like bad government; civil indifference is responsible for one as for the other. As a matter of individual warning there is little to say, says McClure's Magazine. Find out where your water comes from, and, unless the community guards the general health by furnishing a pure drinking supply, guard your own by boiling the water. Don't allow open vaults or sewage accessible to flies to exist near where you live. There's a board of health in your town; if it's worthless there's a law regarding nuisances that isn't. Go to your doctor promptly, "on suspicion," if you have any reason to suppose that you have contracted the disease. It is no ailment to parley with. If you know of a case that the attending physician has reported privately but not to the health department, report it yourself. He won't like that, but it will be good for him. You pay taxes to get good water and to have the laws enforced; one of the best preventives against typhoid is the "pernicious municipal activity" which gets what it pays for. After all, the question as to whether your city chooses to have typhoid fever at great expense like Cleveland and Chicago, or to avoid it at less expense, like Lorain and Lawrence, is largely a matter of intelligent working citizenship.

The Unusual Mistake.

Near-Sighted Stranger (at swell banquet)—I beg pardon, but you are the head waiter, are you not?

Distinguished Guest—Good gracious, no! I'm only Baron de Burgoe!—Chicago Tribune.

CARMENTS MADE OF PAPER

Textile Fabrics That Are Warm and May Be Washed—Have Been Used in Asia.

Garments made of paper have long been used in eastern Asia, but only in default of other clothing or on special occasions. In western countries the only articles of dress made of paper, until recently, were collars, cuffs and shirt bosoms; that is to say, articles which are usually starched. Now, however, numerous inventors are endeavoring to introduce woven paper fabrics, says the Scientific American.

Some time ago an Italian, Prof. Zanetti, devised a method of making fine and strong yarns by twisting very thin silk paper, cut into strips about one-tenth of an inch wide. As yet these yarns are only used for wicks of wax candles and in the manufacture of incandescent gas mantles.

A greater advance has been made in Saxony. Here, also, narrow strips of paper are spun by a process patented by Daviez & Co. Paper and cotton are also spun together, so that in the finished yarn the paper envelops the cotton. These yarns are used as fillers, in conjunction with cotton warp, in weaving drillings suitable for toweling and summer waistcoats, trousers and skirts.

Heavier and warmer cloth is made by combining paper and woolen yarns. The fabric is cream-colored, and may be washed repeatedly without injuring the surface. It is well adapted for tennis and lounging suits. Sufficient cloth for a jacket, waistcoat and trousers costs only ten marks, or \$2.50, and still cheaper garments are made for laborers. This new product is named xylofin.

For such use, however, raw materials even cheaper than finished paper are sought. Spinning mill refuse, consisting of very short smooth fibers that cannot be spun, goes, as a rule, to the paper mills. Many attempts to utilize this material have been made in the spinning mills, and experiments in spinning it wet suggested the idea of further comminuting the short fibers in paper machines. In this way a thin fibrous paste was produced. This, when poured on sieves, yielded a thin, soft paper, which, partially dried and cut into narrow strips, could be spun into yarn. Other cheap paper stock, including wood pulp, can be converted into yarn by a similar process, and so spinning and paper making meet.

One brand of these cellulose or wood pulp yarns is called silvalin. During the last ten years many similar processes have been patented. The manufacture is still in the experimental stage, but definite progress has been made and the industry has a promising future before it.

Resistance to the action of water is another important quality in which the fabrics differ greatly. Prof. Pfuhl gives an example from experience. A lighter laden with grain in jute and canvas bags sank in the Volga. Thirty-six hours afterward the canvas (flax) bags were raised, with their contents, but the jute bags had disintegrated so that the grain which they contained was lost. Jute yarns, however, withstand several hours' immersion, but wood pulp yarns fall apart after very brief soaking.

SOME FACTS ABOUT TIME.

There Are Many Ideas Regarding It, But Its Forefinger Writes in Great Wrinkles.

Time is hard to define, says the Newark News. According to the best poets time has a heavy foot, a tooth, a forelock and breakable legs. It travels in divers places; it ambles, trots, gallops, runs, rolls and stands still; it has whips; it crops roses. So far it seems like a horse. But it has a forefinger, also reckless hand that writes wrinkles. This explodes the horse theory. Furthermore, time flies. Hence, "a bird of time." Time is money; being also a bird, time is a gold eagle, perhaps; money is the root of all evil, and procrastination is the thief of time. Therefore procrastination is (1) a chicken thief, (2) a good thing.

The wickedness of time is beyond question. It is vindictive. "I wasted time," mourns King

Richard, "and now doth time waste me." Time waits for no man. Time shall throw a dart at thee. Time robs us of our joys. Time will tell. Time is unthinking. Time possesses its debtors. The time is out of joint, and well may it be, considering what a nuisance it is.

Time is a sea, a sandy beach, a bank, a shoal and an abyss. Also it is a whirligig, which seems odd when we recall that time is quiet as a nun. Time is good, bad, high, fine, rough, hot, Christmas, spring, waltz, common and lovely. Among good times may be mentioned quitting time and dinner time.

Rapid Growth Kills Boy.

A victim of his rapid growth Johnny Whitley, of Antrim, N. H., died at the home of relatives at Malden yesterday. From a child Whitley

was tall and rather sickly but it became apparent that he was going to be an unusually tall man.

About a year ago on his twentieth birthday, he had attained the height of six feet and was growing. In spite of the efforts of physicians he contracted consumption, which caused his death.

During the last year Whitley's growth continued at such a rate that at the time of his death he was seven feet tall. In the last year of his life he averaged nearly an inch a month.

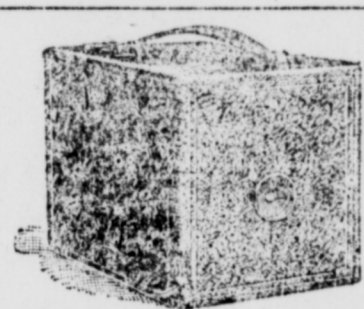

A Previous Apology.

"So sorry not to have heard your lecture last," night said the loquacious lady. "I know I missed a treat everyboy says it was great!"

"How did they find out?" asked Mr. Frodo. "I sure you know, was postponed."

An Indisputable SAFE INVESTMENT

The material progress which our country is now, and has been making for the past decade of years, naturally brings to the surface numerous schemes of the "get-rich-quick" character that benefit only the promoters of such, at the expense of innocent investors.

In this age of genuine prosperity with every legitimate business booming, wages high, work in abundance, giving employment to all willing to earn, and products of the farm bringing best prices; there is little or no excuse for one not to join the array of money-makers.

The first and safest investment to make is to become a reader of the CINCINNATI ENQUIRER, the greatest and most reliable newspaper in the United States. With the facts, truth and information gleaned from its columns, one may become well qualified to reach out and secure his share of profit that always accrues from investments intelligently made.

The WEEKLY ENQUIRER costs but one dollar for one year's term. The SUNDAY ENQUIRER costs you two dollars for a year. The DAILY ENQUIRER (7 issues a week) you get for fourteen dollars a year.

Without the aid of a first-class newspaper, success in any enterprise becomes problematical. For ten cents you can secure a sample copy of each, DAILY, SUNDAY and WEEKLY ENQUIRER. Address,

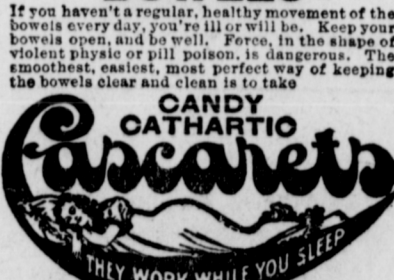

Enquirer Company, Cincinnati, Ohio.

OUR NEW YORK WEEKLY LETTER

The Feather Boa the Craze of the Hour. Lillian Russell's \$2,000 Gown—Fashionable Fabrics For Various Purposes. Covert Cloth a Leader in This Season's Coats.

By RENE DEVERAUX.

That the queens of stage and screen are potent factors in creating and influencing the trend of fashion has been forcibly demonstrated within the last few weeks by the revival and resurrection of the picturesque ostrich feather boa. Since the opening night of Bernard Shaw's new play, "Man and Superman," in which the fascinating Anna exploits the charm of this alluring accessory, every woman in New York, it would seem, has determined that one of these treasures shall encircle her throat and ensnare her admirers. At any rate, there is now a veritable craze for these neckpieces—so much so, in fact, that the shops are well nigh unable to supply the demand. And, indeed, they are bewitching in their variety of soft, dainty colors, brought out in all lengths, from the short ones which merely tie at the throat to the longer ones which hang to the skirt of the frock.

With her famous \$2,000 gown, creating something of a sensation in New York this season, the popular Lillian Russell is wearing a light blue feather boa, exactly matching which is a fetching little feather muff with a blue and white directly on top. In theater boxes and fashionable restaurants feather boas fall from aristocratic shoulders or gracefully drape the backs of chairs, forcing one to acknowledge their picturesque charm.

So far every feature of fashion yet introduced emphasizes the effeminate

rather than the mannish. Smart fabrics in dress materials are smooth faced, soft and clinging. Broadcloths, lightweight and supple, grow in popularity for carriage and street wear. Soft French cashmeres in a variety of charming pastel shades are extensively used for house gowns and blouses, and old fashioned Henriettas and drap d'etes are brought out in a dozen or more different tones of plum and violet, together with the other popular colors.

One of the smartest fabrics for practical wear is a wide, heavyweight mohair, perhaps the most serviceable dress fabric made. These are woven in

READ THIS

Trenton, Ky., Jan. 24, 1905.—Dr. E. W. Hall, St. Louis, Mo., Dear Sir: Please find enclosed \$1.00 for one bottle of your Texas Wonder. I used one bottle for kidney and bladder trouble. I want this bottle for my wife. It is a real wonder and one of the greatest medicines in the world. I was passing pure blood and one bottle cured me sound and well. You can use my testimonial and photograph if you wish. Yours truly, R. A. WILLIAMS, Real Estate Agent.

A TEXAS WONDER

One small bottle of Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emission, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. Regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to cure any of the above mentioned. Sold by all druggists. Dr. E. W. Hall, sole manufacturer, P. O. box 629, office, 2931 Olive Street, St. Louis, Mo.

stripes, checks and plaids, many of them being exact copies of French and English suitings. An exceedingly durable mohair is thickly corded, which adds to its warmth and serviceability.

For reception and evening gowns chiffon velvet and chiffon cloths lead where handsome gowns are desired, and for less expensive toilets velvets and velvings are as much worn as ever.

For trimming cloth gowns embroidery and braids are elaborately employed, gold threads being thickly interspersed throughout. Among the smartest embroidered effects in gown trimmings are those formed of an applique of large petaled flowers slightly padded to bring out the design. The centers of these flowers are embroidered in fine French knots, their stems being outlined upon the material of which the gown is made in heavy embroidery silk. Taffeta silk bands upon which similar designs have been applied come in wide and narrow widths. Nothing is prettier for trimming the bodice of a handsome cloth gown.

On the avenue natty little tan covert cloth coats are everywhere in evidence, some in short jackets, others in three-quarter lengths and still others reaching almost to the bottom of the skirt. A smart model this season is almost a counterpart of a man's spring overcoat. This style coat is loose back and front with turned down velvet collar of tan and finished with a double row of tan horn buttons.

Covert cloth coats in loose empire effects are a trifle more dressy than the one described above, gold bullet buttons and fancy collars trimming many of these.

Occasionally one sees a smart blue coat fastened with army buttons and finished with crimson cloth collar and cuffs.

Don't Use Big Words.

[New York Press.]

In promulgating esoteric cogitations or articulating superficial sentimentalities and philosophical or psychological observation, beware of platitudinous ponderosity. Let your statements possess a clarified conciseness, compacted comprehensibility, coalescent consistency and a concentrated cogency. Eschew all conglomerations of flatulent garrulity, jejune babblement and asinine affectations.

In trying to impress upon others the great superiority of —, and why you and every one else smoke them it is necessary to use jawbreakers.

Let your extemporaneous discantings and unpremeditated expatiations have intelligibility and veracious vivacity without rhodomontade or thrasonical bombast; sedulously avoid all polysyllabic profundity, psittacous vacuity, ventriloquial verbosity and vandiloquent vapidity; shun double entendres, prurient jocosity and pestiferous profanity, obscure or apparent.

In other words, talk plainly; naturally, sensibly and truthfully; say that — is the best that has ever been offered. And that settles it.

Cleared for Action.

When the body is cleared for action, by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eye; the firmness of the flesh and muscles; the buoyancy of the mind. Try them. At Z. Wayne Griffin Bro. drug store, 25 cents.

Pointers for Farmers.

Snow makes a good covering for the wheat fields, but a poor one for harvesting implements.

Beware of barn which is adulterated with rice hulls. This mixture disagrees with any animals.

Now be careful. Look ahead. Don't swamp prices by dumping on the market all at once too much of this big harvest.

Is the grass on your lawn thin and of poor quality? Scatter some fresh seed and a good dressing of wood ashes over it.

There are some things that it isn't really worth while to try. For instance, it is not worth trying to raise honest for profit.

Husking corn after the earth begins to freeze and thaw is one of the preventable things that makes the boy want to leave the farm.

Macy's NEW YORK

A Typical Macy Bargain

\$14.96 buys this New York Model Fur Lined Coat. Guaranteed to be the best value of its kind ever offered. Every coat sold with the understanding that if not entirely satisfactory, upon return money will be refunded.

Last season the fur lined coat was quite the rage; we anticipated that this fall and winter season would find the fur lined coat more popular than heretofore, and therefore made arrangements whereby we could sell to our Mail Order patrons a fur lined coat at the unequalled price here quoted.

We have to offer 1,000 as illustrated. The coat is a loose double breasted model made of black, brown, red and green good quality broadcloth (samples sent upon request); is 44 inches long; has a deep shawl collar of sable cone; is lined with gray and white squirrel; full sleeves with turn back cuffs, satin lined; sizes, 32 to 42. This style coat is particularly well adapted for driving, autoing and general wear.

The price we can guarantee only as long as the quantity we have on hand lasts, as it will not be possible to duplicate the coats at the original purchase price. There is no need of wondering how such a splendid coat is sold at \$14.96—it is simply Macy's method that makes it possible.

Order at once and don't miss this bargain. **R. H. MACY & CO., NEW YORK**
